

Please stop Sinclair Broadcasting from allowing it's stations to air anti-Kerry documentary dressed as news so close to election day without also airing a truly balancing documentary. This is a clear example of the dangers of large companies controlling the airwaves for their profit rather than the public good. Our democracy is at stake. Media ownership rules need to be strenghtened.

Propaganda parading as news is incredibly dangerous when it is such a major "news" source. Reminds me of Russia... Pravda.. Only one newspaper...

Thank you for your attention to this matter.
Sincerely,
Phyllis Childs
